DOCTOR SAYS

Danger of Plague Outbreaks Still Present

W. G. BRANDSTADT, M.D.

Although much of the panic that once attended out-breaks of plagus is gone, the danger is still present. A case was recently reported in a young girl in Denver. Because it was the first case that the control of the diagnosis was made with difficulty.

The unexpected almost always befile the doctors at first. In this case, the carriers of the causaitive germ, the of the causaitive germ, the that inhabited the local for septimes.

events and progress of America and its people. PATTERN GLASS has depleted our wey of itie, religious faiths, wars, tregedies, progress of our ploneers and our Yankee humor. Liberty was a newly-

batmor. Liberty was a newlywon and cherished freedom. After seeing the lovely pasters showing our proud pastit does seem a shame that the companies producing the glass of our time are so busy oproducing the same old paterns of yesteryear, wheo here are so many events of reast historical impact to be

recorded today.

Many collectors and wouldbe collectors feel that there is
little hope of accumulating
additional or unusual pieces
of glass to add to a collection
of pattern glass. But if one
is determined and diligent,
and patient, with a little hick
and good timing, a collection
of rarries can be found. And,
ster all, isn't that the fun

Our guarantee is unique...it has no strings. We guarantee unconditionally everything you buy at A&P. No matter what it is, no matter who makes it, if A&P sells it, A&P guarantees it.

We feel that if you come to A&P, you should be able to depend upon A&P. You have every right to expect to be satisfied with everything you buy.

But this total guarantee isn't just good for you, it's good for us too. When we have to refund money, we want to know why. So, we start checking any and everything that might be the cause...

our suppliers, our purchasing, our lab tests or our handling. It keeps us working hard at the job of being America's most dependable food merchant.

It helps us, too, to ask you honestly... shouldn't A&P be your store? HT O 1968, THE GREAT ATLANTIC & PACIFIC TEA CO., INC.

Christmas Gift Leads To House Full of Trains

BY ERIC GOOLD

"It all started at Christmas in 1950 when my father gave me an engine, a coal car, a cattle car and a crane." said Skip Toxch.
"He was on strike at the time, and though I had asked for them. I never thought he could afford them. It really meant a lot to me." Tosch meant a lot to me." Tosch meant a lot to me."

Retention Basins To Be Regulated?

Work on an ordinance regulating the water quality in detention and retention basins may begin soon, Village Manager L. A. Hanson said westerday.

may begin soon, Village Managet L. A. Hanson said yesterday.
He said the village is waiting for a study on detention basins to be completed.
"The engineering study should be done within 60 days." Hanson said, "and we hope the study will provide us with the material to write a new ordinance. That's why the study was made."

FREE Your Sesquicentennial Medailion

We have three silver and twenty-five bronze medallions which we shall award absolutely free in commemoration of Illinois' 150th anniversary as a state. These are first-issue medallions which were authorized by the Illinois Sesquicentennial Commission and were rapidly sold out. They are already collectors' items, worth many times their original value.

On the face of the medallion, designed by the noted sculptor and medallist, Trygve Rovelstad of Elgin, new skyscrapers soar behind Fort Dearborn, the Famed Chicago Water Tower, and a typical Illinois farm. An Indian tepee, a farmer guiding a horse-drawn plow, and an old-time railroad train recall how Illinois pioneers developed the lonely prairie into a rich agricultural, commercial, and industrial empire.

YESTERDAY'S ANSWERS SIMPLY WILL NOT SOLVE TODAY'S PROBLEMS, LET ALONE TOMORROW'S NEEDS.

Change, simply for the sake of change -wild, erratic. chaotic change -solves nothing.

R

But thoughtful change, responsible change, is urgently needed today. Change is inevitable. The nature of that change is up to us, as citizens and voters.

The best hope of every man, woman, and child in America lies in replacing outworn ideas with fresh, workable, new ones. And, in the process, updating those lasting ideas that still make sense for today. The stage is set for bringing a healthy dose of good sense to our government. Our people want it. It is the one unifier that all groups and all interests, now seemingly so at odds, can agree on and work toward, together.

I believe it makes sense, for all of us,

-to change our country's foreign policy to one of leadership in ideas, ideals, and responsibility, rather than fits and starts and reaction.

—to remove those impediments which hinder some from having fair and equal opportunity to live and grow and earn a living for their families.

to change from aimlessness to clear-cut new priorities, because all the other worthwhile changes we desire as individuals, as groups, and as a nation, can only happen when we make planned, intelligent use of our resources—human and material.

—to change our sprawling government bureaucracy into a modern, efficient servant, sensitive and responsive to people's needs.

I believe it makes sense for each citizen to be an active participant in the affairs of our nation. Speaking up for what you want changed, and in behalf of the caliber of man you entrust to work for those changes, is more important today than ever before.

I believe the Republican Party free to act, unencumbered by this Administration's mistakes, sensitive to the needs of the people, can best weld the nation, heal its wounds, and move America forward again.

This is my hope—it is our best hope—for change.

During the six years I have served as your Representative in the Congress of the United States. when many of us have been working steadily for constructive change, I have been constantly reminded of your deep interest in public affairs. Today, more than ever, your thoughtful comments on the vital issues have shown a deep concern and an alertness to the problems facing our nation.

Our District—with its great reservoir of interest, education, and experience—has an unusual opportunity and, indeed, an obligation to help provide leadership, idealism, and direction for the changes our nation needs.

l ask for your continued interest and support, and urge you to vote for Republican leadership on Nov. 5.

Welcome to our new, exclusive 1/10% Mortgage Interest Rate

We've broken with the traditional 1/4% increments for variations in home loan interest rates. Our new 1/10% progressive rate structure will provide a new flexibility to assure home buyers of the most equitable rate at all times. And it can provide considerable savings over the term of a mortgage depending upon the original down payment. It's just another example of original down payment. It's just another example of

Bell Savings' constant effort to make home whereship easier and more enjoyable. Bell is known for making the best possible commitment on the best possible terms. With careful attention to the details that can reduce the immediate cash outlay for home buyers. And offering such items as pre-ayment privileges and open end provisions tailored to your needs.
